PUGLIESE ASSOCIATES UNVEILS REDESIGNED WEBSITE

New PuglieseAssociates.com Features Refreshed Design, Enhanced Content

Harrisburg, PA (Jan. 7, 2016) —Pugliese Associates today announced the launch of a new, redesigned version of its website, www.puglieseassociates.com. Key features of the site include a cleaner and more attractive design, a more engaging user experience with enhanced navigation, and the capability to provide detailed information about lobbying in Pennsylvania and the work done by the firm.

"We are excited to be able to offer a more insightful look at Pennsylvania politics through our redesigned site", said Rocco Pugliese, founder and president of Pugliese Associates. "We want to offer people as many ways as possible to get the information they need".

The site's refreshed and simplified look, combined with enhanced content, more intuitive navigation, and optimization for mobile devices, gives site visitors a richer and more fulfilling online experience. Case studies throughout Pugliese Associates' website provide behind-the-scenes insight into how successful lobbying gets done in Harrisburg and Philadelphia, while the blog and news sections offer timely information on legislation, policy, and politics across Pennsylvania.

"Our mission as a professional and reputable government relations firm is to work tirelessly to obtain the very best outcomes for our clients and the Commonwealth," Pugliese said, "and I believe this redesign of our site provides an innovative platform for visitors to learn how lobbying efforts produce those outcomes."

About Pugliese Associates
